ChemStick

Helps Prevent Chemical Waste

The **ChemStick** was designed to be used with either a barrel, tote, or 5-gallon bucket and easily connects to existing pick-up tubes.

Features:

- Chemical and acid resistant
- Polypropylene construction with viton seals
- Keeps hose primed
- Rigid pipe to overcome common problems with flexible tubing
- Stops debris from entering the chemical container with the bung adapter (barrel), cover plate (tote), or fitted cap (5-gallon)

Threaded to fit 3/4" container lid knockouts

Universal, vented, 5-gallon ChemStick fitting
