Guardian Connect In-Line EC/ppm/Temp/pH Monitor

Part #: **X500-105**

Product Specifications

Continuous nutrient solution monitoring system that measures and displays EC/ppm, temperature, and pH levels using an easy-to-read green LED screen.

Stay Connected - interfacing with the Connect Stick allows the user to monitor, data log, and remotely view conductivity, pH, and temperature readings.

The Guardian Connect features:

Wall mounted for a simple and clean installation

Easy push-button pH calibration - once every 6 months

No calibration required for conductivity and temperature

Flashing alarms tell when reading is out of ideal range

Description	Part #
Constant Nutrient Solution Indicator	X500-105
