Nutrient Delivery System Ultrasonic Micro-Doser Kits

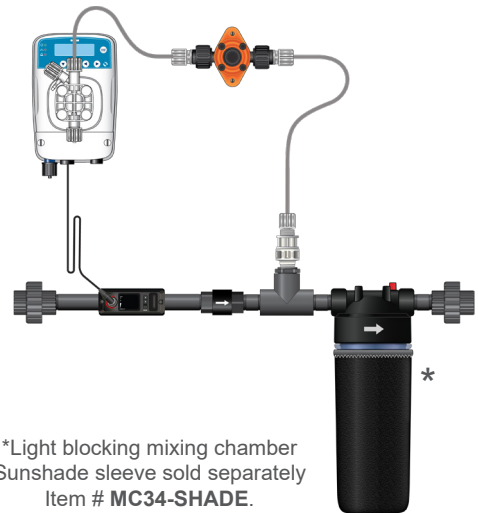

Ultimate Delivery with the Eatron eOne Micro-Doser System

The Eatron Ultrasonic Micro-Dosers accurately dose super-concentrated products into an existing fertigation system. They hit the targets that many of the high-value products, on the market, demand. Perfect for low flow applications and high chemical concentrations.

Multiple Applications - acids (pH Down), caustics (pH Up), plant health additives, and water treatment products.

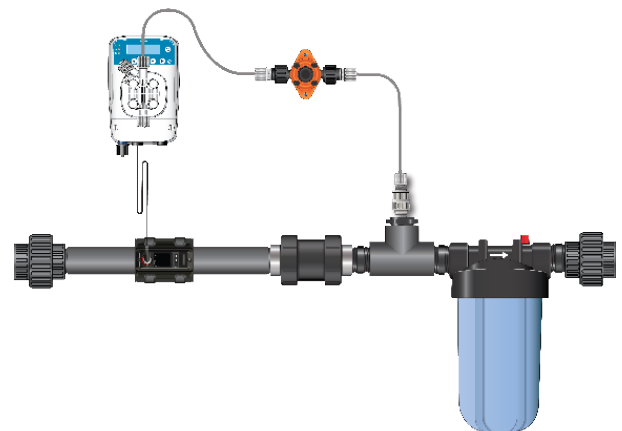

Features:

Easy-to-Read Digital Display
Multi-Directional
Digital Flow Reading Totalizer
Ability to Micro Dose as Low as 0.1 mL per Gallon
Ability to Handle High Chemical Concentrations
Pulse Irrigation Compatible
Handle Large Variances in Flow Rate
Instantaneous dosing via 4-20 mA Communication Versus Batching
Tighter Chemical Dosing in Relation to Flow
Easy Installation - No Difficult Wiring
Easy-to-Follow Programming Instructions

*Light blocking mixing chamber
Sunshade sleeve sold separately
Item # MC34-SHADE.

Description	Item #
Lo-Flo Ultrasonic Micro-Doser Kit - 3/4" NPT	MDE0110MF.75KITUS

Description	Item #
Hi-Flo Ultrasonic Micro-Doser Kit - 1-1/2" NPT	MDE0607MF1.5KITUS

Nutrient Delivery System Ultrasonic Micro-Doser Expansion Kits

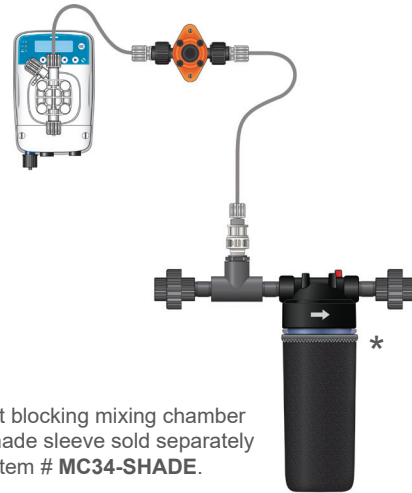

Ultimate Delivery with the Etatron eOne Micro-Doser System

The Etatron Ultrasonic Micro-Doser Expansion Kit allows you to easily add one (1) or two (2) Etatron eOne MF Metering Pumps to your existing Nutrient Delivery System.

Easy to follow wiring and programming instructions make installation of your next Micro-Doser a breeze.

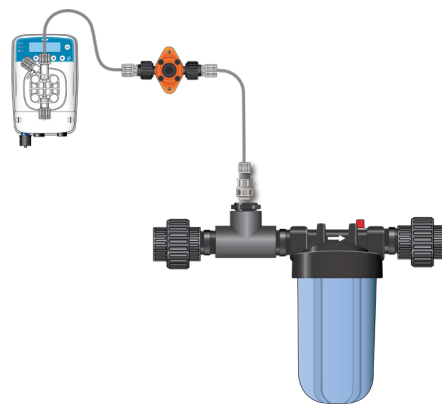

Features:

Easy Installation - No Difficult Wiring
Easy-to-Follow Programming Instructions
Easy-to-Read Digital Display
Multi-Directional
Digital Flow Reading Totalizer
Ability to Micro Dose as Low as 0.1 mL per Gallon
Ability to Handle High Chemical Concentrations
Pulse Irrigation Compatible
Handle Large Variances in Flow Rate
Instantaneous dosing via 4-20 mA Communication Versus Batching
Tighter Chemical Dosing in Relation to Flow

*Light blocking mixing chamber
Sunshade sleeve sold separately
Item # **MC34-SHADE**.

Description	Item #
Lo-Flo Ultrasonic Micro-Doser Expansion Kit - 3/4" NPT	MDE0110MF.75KITUS-EXP

Description	Item #
Hi-Flo Ultrasonic Micro-Doser Expansion Kit - 1-1/2" NPT	MDE0607MF1.5KITUS-EXP

Nutrient Delivery System Ultrasonic Micro-Doser Retro Kits

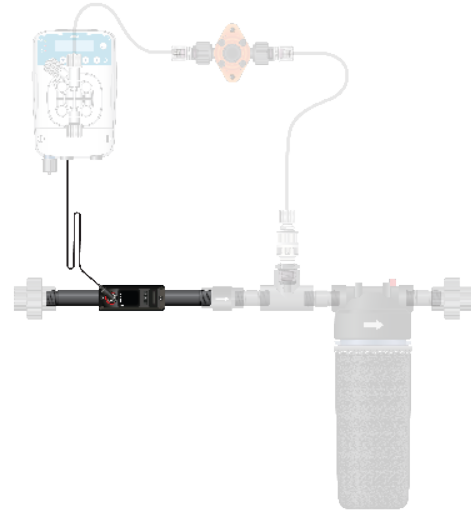

Ultimate Delivery with the Eatron eOne Micro-Doser System

The Eatron Ultrasonic Micro-Doser Retro Kit allows you to upgrade your existing Micro-Doser Kit from being signaled by a pulse Water Meter to an Ultrasonic Flow Sensor via 4-20 mA input signal.

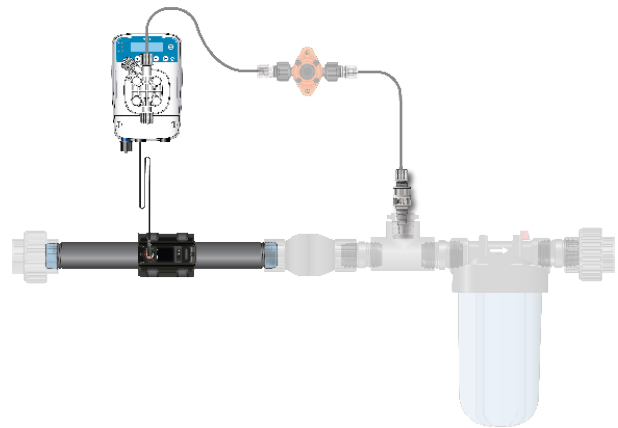

Easy to following wiring and programming instructions make installation simple.

Features:

Easy Installation - No Difficult Wiring
Easy-to-Follow Programming Instructions
Easy-to-Read Digital Display
Multi-Directional
Digital Flow Reading Totalizer
Ability to Micro Dose as Low as 0.1 mL per Gallon
Ability to Handle High Chemical Concentrations
Pulse Irrigation Compatible
Handle Large Variances in Flow Rate
Instantaneous dosing via 4-20 mA Communication Versus Batching
Tighter Chemical Dosing in Relation to Flow

Description	Item #
Lo-Flo Ultrasonic Micro-Doser Retro Kit - 3/4" NPT	MDE0110MF.75KITUS-RETRO

Description	Item #
Hi-Flo Ultrasonic Micro-Doser Retro Kit - 1-1/2" NPT	MDE0607MF1.5KITUS-RETRO
