## Water Meter

### Part #:

- WM34-1PPG
- WM34-1PP10G
- WM100-1PPGP
- WM100-1PP10GP
- WM150-1PPGP
- WM150-1PP10GP

In general terms, water meters determine the flow through a specific portion of a system.

### The Water Meters feature:

Reads in gallons
Light weight
Totalizing
Made of polypropylene

They indicate the volume of water that has flowed through the pipe. Most water meters are totalizing, and some also give the instant flow rate. Some water meters emit a pulse that can be tied to a PLC.

Description	Part #
3/4" - 1 pulse per gallon water meter	WM34-1PPG
3/4" - 1 pulse per 10 gallons water meter	WM34-1PP10G

Description	Part #
1" - 1 pulse per gallon water meter	WM100-1PPGP
1" - 1 pulse per 10 gallons water meter	WM100-1PP10GP

Description	Part #
1 1/2" - 1 pulse per gallon water meter	WM150-1PPGP
1 1/2" - 1 pulse per 10 gallons water meter	WM150-1PP10GP
