WATER METER

Item #:

- WM34-1PPG
- WM34-1PP10G
- WM100-1PPGP
- WM100-1PP10GP
- WM150-1PPGP
- WM150-1PP10GP

SPECIFICATIONS

In general terms, **Water Meters** determine the flow through a specific portion of a system. They indicate the volume of water that has flowed through the pipe. Most water meters are totalizing, and some also give the instant flow rate. Some water meters emit a pulse that can be tied to a PLC.

FEATURES

Reads in gallons
Light weight
Totalizing
Made of polypropylene
